

# High Precision Outer Box Checkweigher

Unqualified automatic elimination

## Product Features

- ①The roller is smooth and can be used for weight inspection on the assembly line;
- ②Three-level operation authority management, supporting self-set passwords;
- ③Powerful calculation function, recording various test data;
- ④Three-color light upper and lower limit alarm function, strictly controlling the quality of assembly line products;
- ⑤The conveyor belt is easy to disassemble and install, convenient to install and maintain, and easy to clean.

## Product technical parameters

Product model	SC3-10070L80	Storage formula	100 types
Display division	0.001kg	Belt speed	5-90m/min
Inspection weight range	1-80kg	Power supply	AC220V±10%
Weight checking accuracy	±5-20g	Shell material	Carbon steel spray painting
Size of weighing section	L 1000mm*W 700mm	Sorting section	Standard 1 section (optional 3 sections)
Suitable product size	L≤700mm; W≤700mm	Data transmission	USB data export
Elimination method	Push rod type, swing wheel type, and top lifting transplanting are optional		
Optional Features	Real time printing, code reading and sorting, online code spraying, online code reading, and online labeling		

Note \* The maximum speed and precision of weight checking vary according to the actual products and installation environment.

Type selection should pay attention to the movement direction of the product on the belt line. For transparent or translucent products, please contact us.
